

Heartland Kids Weekend Bulletin

April 18/19

John 21:6(ICB)

He said, "Throw your net into the water on the right side of the boat, and you will find some." So they did this. They caught so many fish that they could not pull the net back into the boat.

New Calling

- When we talk about "calling," we mean something that God is asking us to do for Him. This could be something as simple as forgiving your brother or sister, or something as big as what He wants you to do as your job for the rest of your life!

New Leader

- When we come to know Jesus, He wants us to follow Him! He wants to lead us in everything that we do. Jesus doesn't want us to be alone. He wants to help us with all of our decisions! He is the best leader that we could ever have!

New Life

- Jesus always gives us new life! When we follow Him, we have a new life! As long as we follow Jesus, we will have a new life with Jesus in heaven!

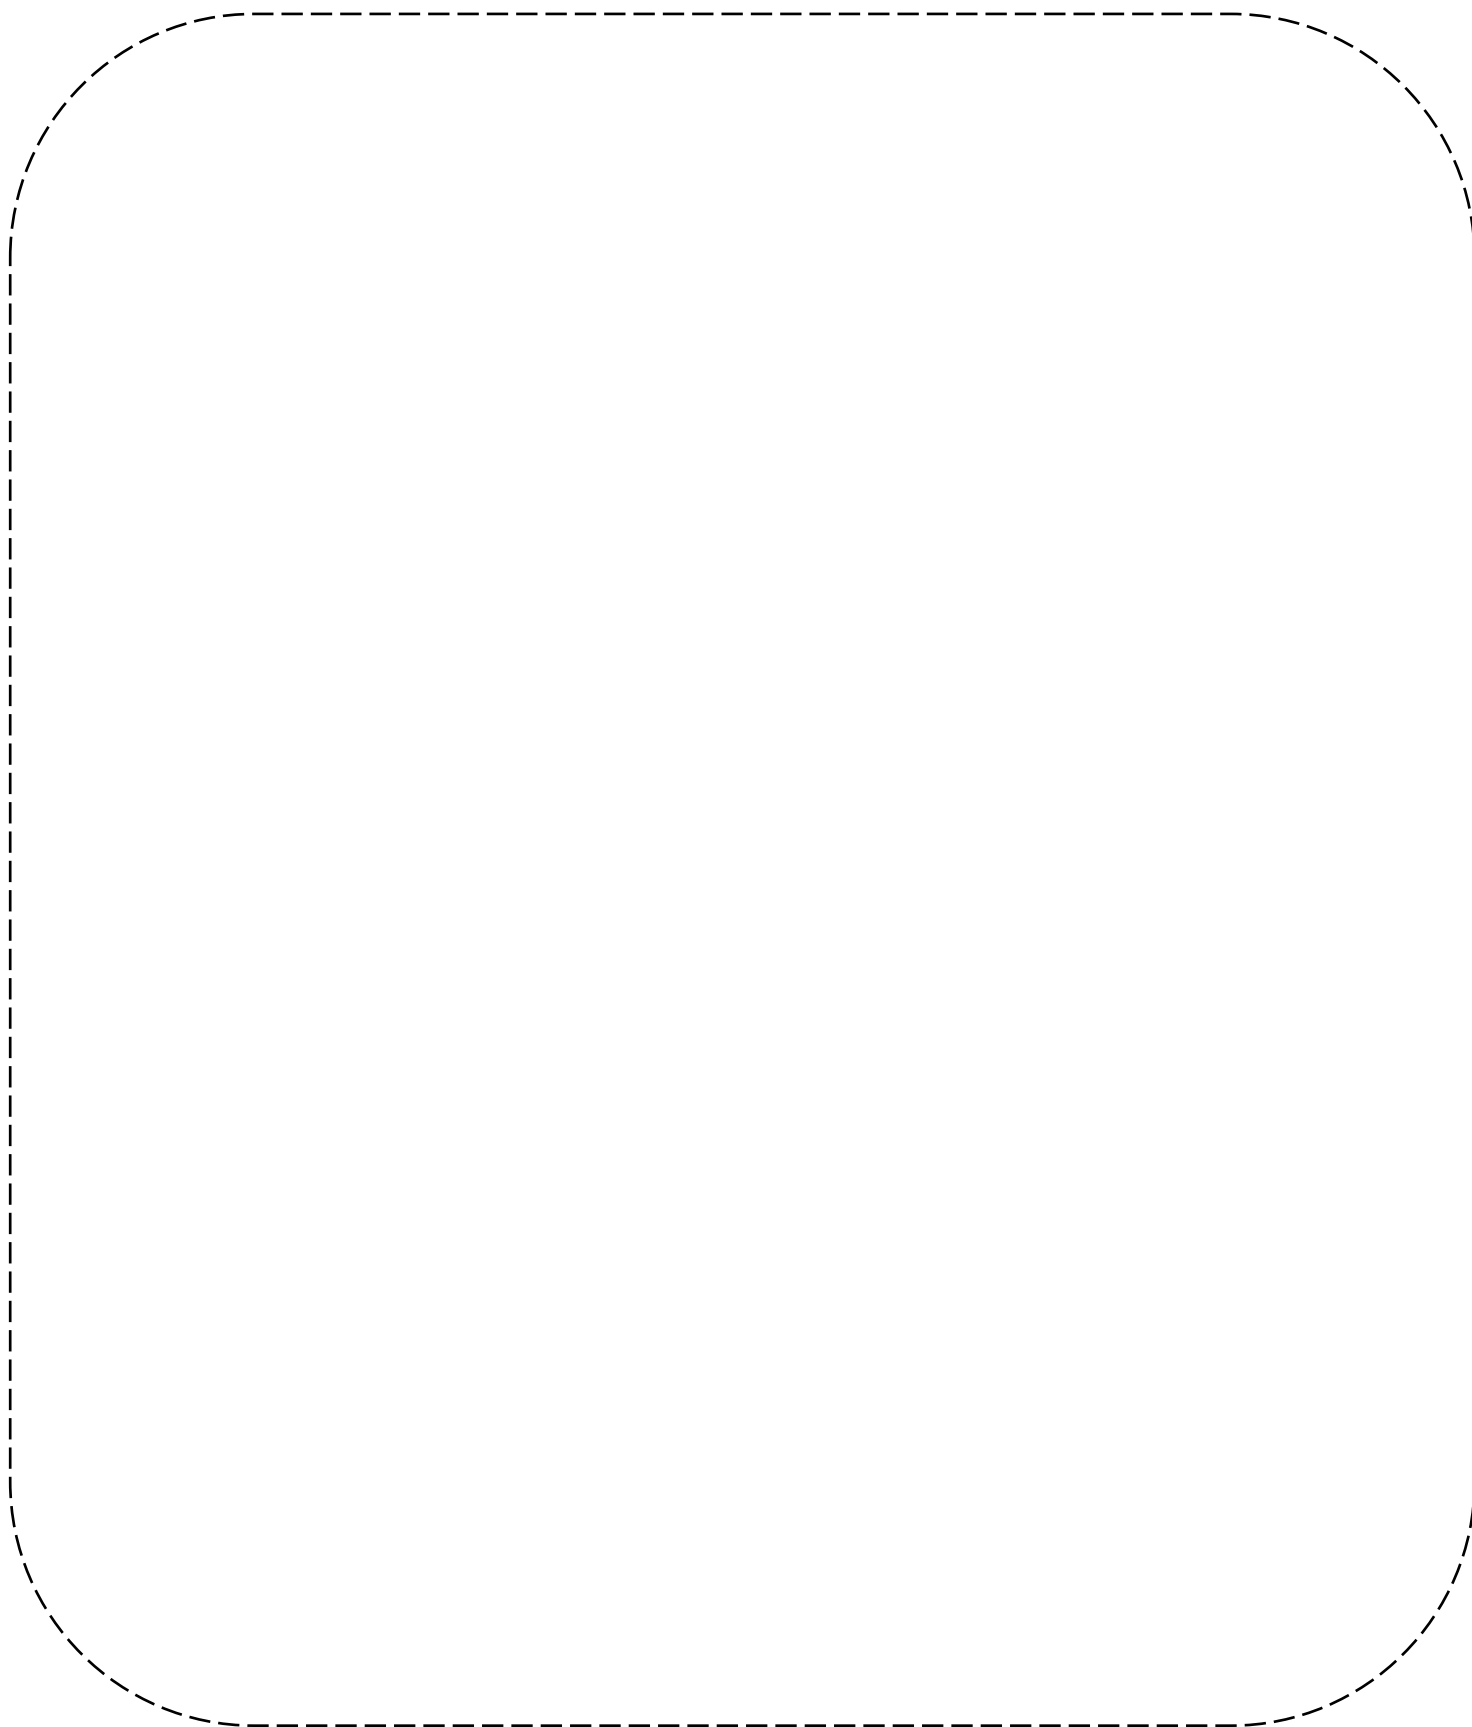

Some questions to discuss as a family:

About which new thing mentioned above are you the most excited?

Have you and your family ever gone fishing? What is your favourite fishing story?

What can you and your family do this week to show someone else the love of Jesus?

DRAW A PICTURE OF THE STORY YOU HEARD TODAY

AN ACTIVITY FOR THIS WEEK

Let's make something great appear using just a few supplies, just like the fish in the story showed up when they threw their nets on the other side of the boat.

Below are instructions to make some **ROCK CANDY** at home!

Here's what you'll need:

- Water
- Sugar
- Clothespin
- Mason jar or glass
- A Pot
- Wooden Sticks
- Food Colouring (optional)
- Flavouring – vanilla, peppermint, etc. (optional)

Here's what you do:

1. Boil two (2) cups of water in the pot on the stove.
2. Stir in four (4) cups of sugar. Boil and stir until the sugar completely dissolves. Once this is done, you may add any flavouring that you would like.
3. Cool for 15-20 minutes.
4. While waiting for the solution to cool, wet one end of the wooden sticks and coat it with sugar. Allow them to completely dry before moving to the next step.
5. Pour the cooled solution into jars or glasses (one glass or jar per stick). You can now add the food colouring to make your candy any colour you want!
6. Insert the wooden stick into the jar, sugar coated end down, being sure that no part of the stick is touching the jar. Hold it in place using a clothespin.
7. Place the jar in a cool, dry place, and wait for the crystals to form! They will begin to form slowly over a few days! They will reach their full growth at the end of two weeks!
