

WHO AM I?

This week's Bible verse says, "Do not put any other gods in place of me." Sometimes we don't even know what another god looks like! It can be anything that takes up more of our time and energy than God. TV, books, friends and even our family can become a god to us. While these things can be good, they shouldn't be what we worship or look to for our happiness.

In the space below, circle anything you think might be taking your time away from God. Then this week, work on spending more time with God.
